## New GrindLazer Scarifier Systems

Now available at Equipements Stinson, 3 models of GrindLazer scarifier to choose from depending on the material you will be removing and how fast you want to complete the job. You have the GrindLazer 270, 390 & the 480. With a LineDriver attached to the GrindLazer, you will double your productivity. The GrindLazer

tungsten carbide cutters. The front mounted caster along with dual rear pneumatic air-filled tires makes handling safe and easy to maneuver as a LineLazer.

GrindLazer 270 & 390

480 reverse cutting can not operate without the LineDriver.

The production or removal rate vary from 600 sq ft/hr to 2100 sq ft/hr and the 480 allows you to do inlay/grooving. The best choice to remove traffic paint are the flail

LineDriver required with the GrindLazer 480

zer. The maximum working width is 8 in for the 270 and 10 in for the 390 & 480. GrindLazers are a nice innovation to the market backed by a solid reputation for proven quality.
